

QUALITY POLICY

First Graphene is committed to consistently providing the highest quality Graphene and Graphitic products to our customers, that meet or exceed their expectations. We are also dedicated to developing downstream solutions for our customers when using our products.

Our goal is to be the world's best provider of high-performance Graphene and Graphitic products and the recognised innovation leader in the manufacture of these materials.

We will achieve our Quality Policy goal by undertaking the following:

- Develop and implement a Quality Management System that delivers the highest quality products and services.
- A commitment by the company to continuously improve our processes to meet customers' requirements.
- Provide staff with the necessary quality control training and encourage a quality culture focusing on continuous improvement.
- Collaborate with customers to fully understand their needs and encourage their feedback, to continually improve our performance.
- Commit to include Health, Safety & Environmental protection as an integral part of our Quality Management System and in doing so, provide a safe and healthy workplace whilst respecting and caring for the environment.
- Maintain strict compliance with all applicable regulatory and statutory requirements.
