First Graphene Communicates Progress at International Conferences

Warwick Grigor to present a business update at the Noosa Mining and Exploration Investor Conference in Noosa, Australia.

Andy Goodwin to present a technology update at the CNPComp2019 scientific conference in London, UK.

First Graphene Ltd. (ASX FGR) is pleased to announce that as part of its ongoing commitment to communicate business progress to investors and customers it will be presenting at two international conferences in July 2019.

Warwick Grigor, Non-Executive Chairman, will give a talk on Graphene within the Mixed Minerals session of the Noosa Mining and Exploration Investor Conference in Noosa, Australia on Friday 19th July 2019. Warwick's talk will focus on the progress of the First Graphene Ltd business as it continues to build the foundations for a successful speciality materials business.

Andy Goodwin, Chief Technology Officer will give a talk titled "Graphene Goes Large – Industrial Scale Adoption of Carbon Nanomaterials in Composites" at CNPComp2019 (Carbon Nanomaterials in Composites) scientific conference in London, UK on Thursday 18th July 2019. Andy's talk will emphasise the adoption of PureGRAPH® graphene products in real world applications across the composite materials industry. New data on the performance of PureGRAPH® additives in thermally conductive coatings and as an ion permeability barrier (anti-corrosion of re-bar) additive in concrete will be included.

The presentations will be made available through the First Graphene Ltd website.

About First Graphene Ltd (ASX: FGR)

First Graphene Ltd. is the leading supplier of high-performing, graphene products. The company has a robust manufacturing platform based upon captive supply of high-purity raw materials and an established 100 tonne/year graphene production capacity. Commercial applications are now being progressed in composites, elastomers, fire retardancy, construction and energy storage.

First Graphene Ltd. is publicly listed in Australia (ASX:FGR) and has a primary manufacturing base in Henderson, near Perth, WA. The company was recently incorporated in the UK as First Graphene (UK) Ltd. and is a Tier 1 partner at the Graphene Engineering and Innovation Centre (GEIC), Manchester, UK.

PureGRAPH® Range of Products

PureGRAPH® graphene powders are available in tonnage volumes with lateral platelet sizes of 20µm, 10µm and 5µm. The products are high performing additives, characterised by their high quality and ease of use.
