first graphene

The world's leading graphene company

First Graphene launches platform for growing international audience

First Graphene Ltd., the leading supplier of high-performing, bulk graphene products, has launched a new platform to support its growing base of international customers and stakeholders.

The new website, www.firstgraphene.net, is an opportunity for visitors to develop a deeper understanding of the potential of graphene and its applications. With a clean design and vibrant imagery, the content reflects not only the First Graphene brand but provides insight into the real potential for graphene with their range of high-quality PureGRAPH® products. This new domain replaces the previous firstgraphene.com.au domain.

First Graphene is making huge advances with a robust manufacturing platform and an established 100 tonne per year graphene production capacity. Furthermore, it is the only company in the world with regulatory approval to sell tonnes of graphene in both Europe and Australia.

Chris McMahon, Marketing Manager, says: "This isn't simply a website launch. This is a new platform that showcases the real capabilities behind First Graphene and provides clear guidance to our global customers on the use of graphene in their industry. We will continue to build our content over the coming months to create a wealth of valuable resources."

Craig McGuckin, Managing Director says "Building our brand with global customers is another important foundation for a successful speciality materials business. The new website is a key tool which enables us to do that."

As a Tier 1 partner at the Graphene Engineering and Innovation Centre (GEIC), in Manchester, UK, First Graphene is an innovative leader which works closely with their partners to add value and drive the adoption of graphene products into novel applications.

Visit the website today at www.firstgraphene.net.

About First Graphene Ltd (ASX: FGR)

First Graphene Ltd. is the leading supplier of high-performing, graphene products. The company has a robust manufacturing platform based upon captive supply of high-purity raw materials and an established 100 tonne/year graphene production capacity. Commercial applications are now being progressed in composites, elastomers, fire retardancy, construction and energy storage.

First Graphene Ltd. is publicly listed in Australia (ASX:FGR) and has a primary manufacturing base in Henderson, near Perth, WA. The company was recently incorporated in the UK as First Graphene (UK) Ltd. and is a Tier 1 partner at the Graphene Engineering and Innovation Centre (GEIC), Manchester, UK.

PureGRAPH® Range of Products

PureGRAPH® graphene powders are available in tonnage volumes with lateral platelet sizes of 20µm, 10µm and 5µm. The products are high performing additives, characterised by their high quality and ease of use.
